

AIM-8800 Infrared Microscope Sale

>> Two Purchase Options Available

40% Off New Microscope 50% Off Demo Microscope

The AIM-8800 FTIR Microscope offers advanced features to enable fast, easy sample positioning and efficient analysis of microscopic defects or contaminants in a wide range of materials. All microscopic operations, including aperture setting, focusing, and positioning, are controlled automatically on the PC screen. In addition, automatic mapping functionality enables complete automation and allows dimensional analysis of points, lines, and surfaces.

>> Key features include:

Auto Aperture - Maximizes IR illumination on the sample spot.

Auto X-Y Stage - Simplifies exact sample positioning.

High Sensitivity, Maintenance-Free MCT Detector

Auto Focus - True focus is only one mouse-click away

Please reference the following:

Part number: 206-73700-92

Optional Accessories are not included.

Requires a Shimadzu FTIR bench such as the IRAffinity-1, -1S, -1WL, IRPrestige-21, or IRTracer-100.
Package discount options available.

Valid in USA only.

Not valid with any other offer. Available on a first-come, first-served basis.
